# PULL SCRAPER

With over 50 years of combined experience in engineering, manufacturing, and sales of elevating and pull scrapers, Humdinger Equipment, LTD, is proud to introduce the H619G. The engineers that first introduced you to construction grade pull scrapers formed their own company and are committed to providing the best earth moving products in the market. Our engineers designed and manufactured the 613, 615, and 623 elevating scrapers for Caterpillar and the 417 pull scraper for Noble. It is our engineering experience and commitment to excellence that allows Humdinger to develop and produce the best products on the market today.
